

United Safety Solutions

2018 MSHA New Miner & Refresher Class Schedule

Pre-Registration. & Pre-Payment Required

Public classes - *send registration and payment to:*

United Safety Solutions
826 Bloom Rd, Eagle River, WI 54521

Or call and do payment with debit or credit card: 715-337-2722

New this year... paypal! You can go to our website www.unitedsafetysolutions.com and pay for your class or your company's class right away!

**Sponsored by: call the number given for cost, registration and class information.*

- **IMPORTANT:** All independent contractors on your site are required to have MSHA training. If they are on your site without it, MSHA will give them a citation AND usually give you one. Also if independent contractors do have the 46 or 48 training certificate, they need to have a company MSHA training plan or the training certificates are not valid. So help us help you keep everyone not only safe but compliant! MSHA has asked us to have a copy of the training plan as well. Please give a copy of this class listing to your independent contractors.
- If you would like to add a private class for your company, call and we will set that up for you or join one of the classes listed.
- Private classes are not listed on this printout - to see a private class schedule go to our website www.unitedsafetysolutions.com. Your source for online MSHA training and more.
- On our website you will see our online learning management system (LMS): Offering Refresher and New Miner for both Part 46 & Part 48 as well as CE credit information.
- If your organization needs to complete its **mandatory annual audio metric or baseline test**, it's available and can be set up to be done during your training by calling MED Compass Mobile Health Services at 800-205-8729
- Any price increases on public classes are due to location increases.
- To be included in this listing next year your class dates must be set no later than 10-31-2018

United Safety Solutions offers more than MSHA training.

Check out our website for all your safety and compliance needs in OSHA, DOT, and Agriculture!

- Consulting
- Assessments, Audits
- Your SDS Solution
- Virtual HR Department
- Program & Policy Development
- Your in house instructor
- Your on-line instructor
- *And MORE*

**Please copy the following and give it to your independent contractors to be sure they are MSHA compliant.
Don't get a citation due to an independent contractor being non-compliant.**
